

Cllr. Douglas Waller

After moving from many years in Horsham and now living at the Amblehurst Green development, I am pleased to be representing the community of Billingshurst.

I am retired from a 40-year professional career in Hospital Management, Social Housing and was, lastly, a Commissioner of Service for one of the London Boroughs. More recently, in semi-retirement, I worked for major airlines as a Gate Agent at Gatwick Airport for 15 years until early in 2020.

My particular interest in Parish matters is planning and the environment and the impact these can have. Whilst I support the notion of positive expansion and enhancement, both residentially and commercially, I seek to add to a balance towards simultaneously preserving the ancient character of the village.

I have always had a strong involvement in governance through my various career posts with a high respect for democracy and freedom of influence. I am married with children and adult grandchildren.
